

Learning Kit for March

Pink Orrchid

Toy vehicle is a fantastic way for kids to explore the world around them - as well as stimulate motor, cognitive, and social skills. These toys are great for embracing creativity. Playing with toy cars and vehicles has been a favourite childhood pastime for generations. There's simply nothing like zooming a car across the floor - complete with the enthusiastic sounds of brumming, beeping, and tooting, of course! Or spending hours buried in the tracks of your beloved wooden toy train set.

Your little one can set up car races, prepare rescue missions with emergency vehicles (like ambulances and fire trucks), and operate people-moving carriers (like boats and trains).

Orrchid Montessori House introduces Vehicle theme in the month of March.

Orrchid Montessori House has carefully designed the Learning Kit to engage the little one in the activities that introduce concept Learning, critical thinking, practical way of teaching.

Learning Kit for March

Pink Orrchid

Dear Parents, We're pleased to share the contents of Kit that your child will be exploring:

Content:

- 1. POP-A-MATCH FUN***
- 2. CONTROLLED BOARD PAIRING***
- 3. BALLOON FUN***
- 4. PUZZLE SOLVING***
- 5. ROLLING PIN***
- 6. SIEVE! SIEVE! SIEVE!***

ACTIVITY 1 - POP A MATCH FUN :

Objective :

To develop colour recognition skills.

To improve matching ability.

To strengthen fine motor coordination.

Materials:

2 pair of rockets of 2 colours.

Method :

Place all rockets on the mat.

The child selects one rocket (e.g., pink).

Finds and matches it with the same coloured rocket.

This way completes pairing of the rockets.

After pairing, the child pops up the rocket for fun.

Continues till he enjoys.

Learning Outcomes:

Children can identify and match colours correctly.

Improved hand control while popping rockets.

Increased engagement and joyful learning experience.

ACTIVITY 2 : CONTROLLED BOARD PAIRING -

Objective : * Develop observation and visual discrimination skills. *
Introduce and reinforce the names of different vehicles.

Material : * 1 board with 4 pictures of vehicles
* 4 loose pictures of the same vehicles.

Method : 1. Setting Up the Activity:

- * The child will place the board on a working mat.
- * He/She will spread out the loose vehicle pictures in front of the board.

2. Matching the Pictures:

- * The child will pick up one loose vehicle picture at a time.
- * He/She will carefully match the loose picture to the corresponding vehicle image on the board.
- * Once matched, the child will place the loose picture below the corresponding image on the board.

3. Name Lesson:

- * As the child matches each picture, the teacher or parent will say the name of the vehicle.
- * The child is encouraged to repeat the names, reinforcing language development alongside visual recognition.

Benefits:

- * Enhances concentration and attention to detail
- * Strengthens cognitive skills and memory
- * Builds vocabulary and language comprehension.

ACTIVITY 3 : BALLOON FUN -

Objective:

To encourage parent-child bonding, imagination, animal recognition, observation skills, joy, and reinforcement of the white colour.

Material:

White colour balloon dog with two ears.

Method:

The parent or helper will blow the white balloon and shape it like a dog (the ears are already marked) while the child observes and participates.

Parent-Child Bonding:

Making the balloon dog together creates a happy bonding moment between parent and child.

Imagination & Creativity:

Children can imagine feeding, walking, and playing with their pet dog.

Joy & Emotional Development:

Balloons bring happiness and excitement to children.

Animal Recognition:

Children learn to recognize the dog and its sound "bow-wow."

Fine Motor Observation:

Children observe how the balloon changes shape into a dog.

Colour Reinforcement:

The white balloon helps reinforce the recognition of the white colour.

Learning Outcomes:

Children develop bonding, creativity, observation skills, animal recognition, and colour identification.

ACTIVITY 4: PUZZLE SOLVING -

Objectives:

Identify vehicles.

Improve fine motor skills.

Develop matching skills.

Materials:

4 sets of 2-piece vehicle puzzles.

Method :

Show and name the vehicle.

Demonstrate joining the pieces.

Let children try independently.

Ask simple questions.

Learning Outcomes:

Children can name vehicles.

Better hand-eye coordination.

Improved concentration.

Develop problem-solving skills.

ACTIVITY 5 : ROLLING PIN -

Objective :

To strengthen hand and wrist muscles.

To improve bilateral coordination.

To encourage sensory exploration.

Materials:

Child-sized rolling pin (bellan)

Dough or playdough (given previously)

Method :

Place dough on the mat.

The child holds a rolling pin with both hands.

Roll dough forward and backward evenly.

Can use cutters to create shapes.

Learning Outcomes:

Improved hand strength and control.

Better pre-writing muscle development.

Enhanced creativity and sensory awareness.

ACTIVITY 6 : SIEVE! SIEVE! SIEVE! -

Objective :

To strengthen wrist and finger muscles

To improve coordination and control

To develop independence in practical life skills.

Materials:

One spoon,

One seiver,

Maida in a small zip lock pouch.

Method:

The child opens the zip lock pouch carefully.

Pours maida into one bowl.

Hold the sieve over the big newspaper.

Add maida into the sieve using a spoon.

Gently shake the sieve until fine flour falls onto the paper.

After sieving the flour, it can be shifted again on the siever and the activity can be repeated.

Transfer the entire flour in the packet slowly.

Cleans the area after completing the activity.

Extension :

The child can trace with his two fingers on the sieved flour and enjoy the different patterns created by him.

Learning Outcomes:

Improved hand strength and wrist control.

Better concentration and coordination.

Development of responsibility and neat working habits.
