

Learning Kit for March

White Orrchid

Toy vehicle is a fantastic way for kids to explore the world around them - as well as stimulate motor, cognitive, and social skills. These toys are great for embracing creativity.

Playing with toy cars and vehicles has been a favourite childhood pastime for generations. There's simply nothing like zooming a car across the floor - complete with the enthusiastic sounds of brumming, beeping, and tooting, of course! Or spending hours buried in the tracks of your beloved wooden toy train set.

Your little one can set up car races, prepare rescue missions with emergency vehicles (like ambulances and fire trucks), and operate people-moving carriers (like boats and trains).

Orrchid Montessori House introduces Vehicle theme in the month of March.

Orrchid Montessori House has carefully designed the Learning Kit to engage the little one in the activities that introduce concept Learning, critical thinking, practical way of teaching.
